Windows Installer

An easy Install Wizard

Download here! <https://nextcloud.tilch.io/public.php/dav/files/Dimoo8GdMQ3tebq>

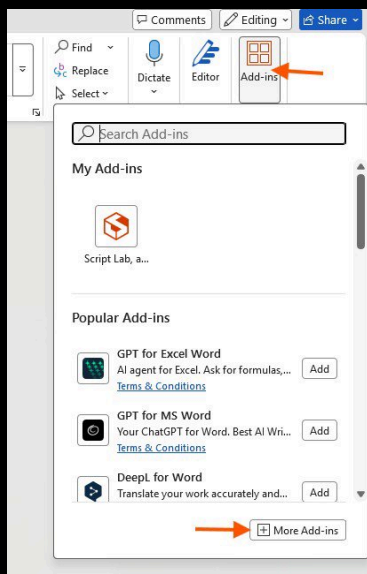

Install

1. Close Microsoft Word completely.
2. Run `AescendWordAddinInstaller.exe`.
3. Accept the administrator prompt.
4. Finish the installer.
5. Restart Microsoft Word.

Add The Add-in In Word

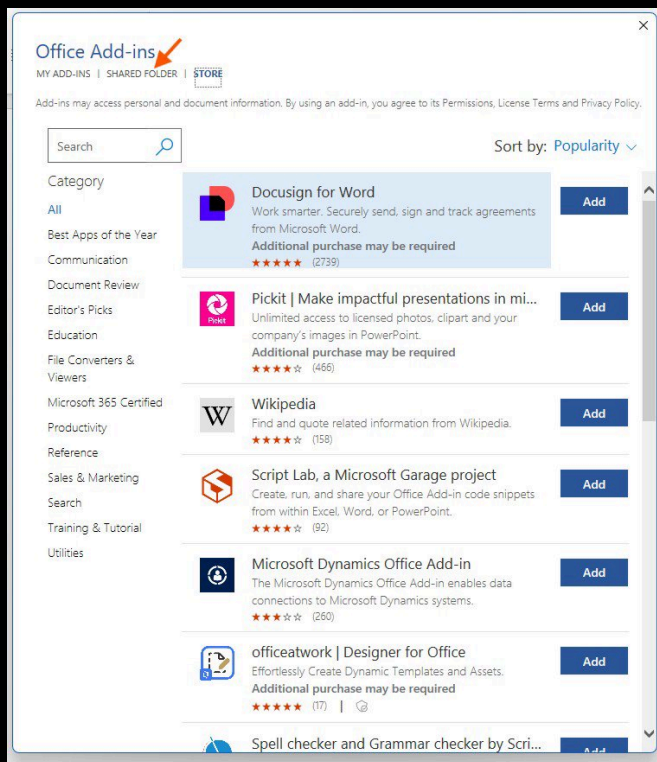

After installation, open Word and add the add-in from the shared catalog.

1. Open Word.
2. Go to `Insert -> Add-ins -> My Add-ins`.

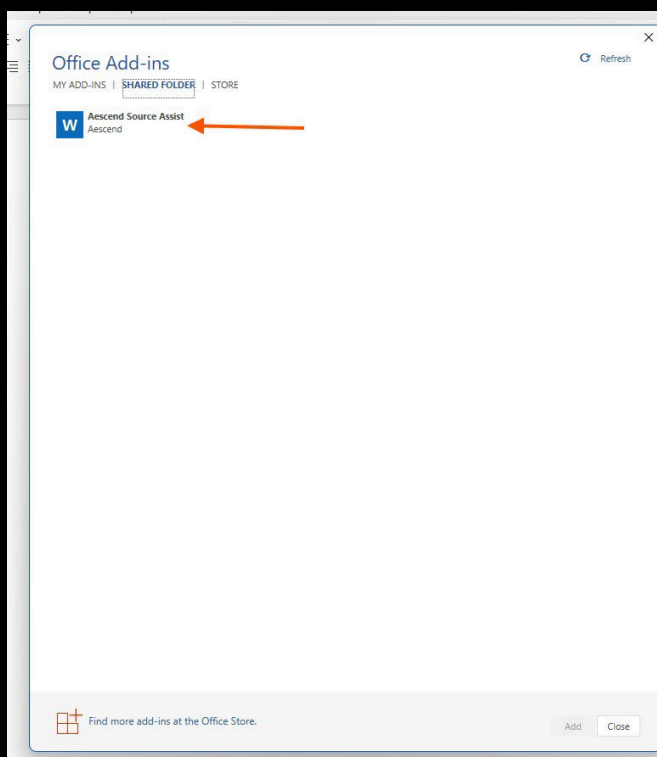

Open `Add-ins` in the Word ribbon, then click `More Add-ins`.

1. Open `Shared Folder`.

In the Office Add-ins window, open the **Shared Folder** tab.

1. Select **Aescend Source Assist**.
2. Click **Add**.

Select **Aescend Source Assist**, then click **Add**.

The **Source Assist** button should appear in the Word ribbon.

Verify The Network Share

If the add-in does not appear, verify that the network share exists.

Use the Windows GUI:

1. Open the Start menu.
2. Search for `Computer Management`.
3. Open `Computer Management`.
4. Go to `System Tools -> Shared Folders -> Shares`.
5. Look for `AescendWordAddin`.

Expected path:

Plain Text ▾

```
C:\ProgramData\Aescend\WordAddin
```

You can also test the share in File Explorer:

Plain Text ▾

```
\\<COMPUTERNAME>\AescendWordAddin
```

The share must contain:

Plain Text ▾

```
manifest.xml
```
